

The following release notes describe changes in Event 1 Integrator between revisions 2.80.0005 and 2.80.0006. Please read them carefully before you use the new software.

**Contents**

Compatibility ..... Section 1  
    *Integrator database compatibility* ..... *Section 1.1*  
Documentation ..... Section 2  
Software Changes ..... Section 3  
    *Cost – Perform Modifications* ..... *Section 3.1*  
    *Budget Codes – Determine Modifications* ..... *Section 3.2*

---

**Section 1 - Compatibility**

- 1.1 Compatibility with Integrator database created by previous versions  
    The Integrator database structure has not changed since version 2.80.0006.
- 

**Section 2 - Documentation**

- 2.1 Documentation  
  
    This release is not accompanied by any changes to the printed or online documentation.
- 

**Section 3 - Software Changes**

- 3.1 Cost – Perform Modifications  
    In previous versions of Integrator 2.8, if the option to “Save details in history” was not checked, invoices would not be removed from the approved modifications list after modifications were performed. This has been corrected.
  
- 3.2 Budget Codes – Determine Modifications  
    In previous versions of Integrator 2.8, if the “Extra Interface” had been used then an error would occur when Integrator was validating new budget codes. This has been corrected.
